

High resolution microscopy in living animals - Part 2

May 25th 2018

IGBMC Auditorium - Illkirch, Strasbourg

PROGRAM (PART 2)

13:30 - 13:40 : Introduction

13:40 - 14:30 : Emiliano Ronzitti (Paris Descartes, France)
« *Light patterning for neural circuits investigation* ».

14:30 - 15:20 : Takashi Hiiragi (EMBL, Germany)
« *Lineage mapping and understanding of tissue self-organisation* »

15:20 - 16:00 : Coffee-Break

16:00 - 16:50 : Jean Salamero (Institut Curie, France)
« *Live-CLEM approach. Back-tracking of structural dynamics of recycling membranes* »

16:50 - 17:10 : Nicolas Lemercier (IGBMC, France)
« *New developments in correlative imaging* »

17:10 - 17:50 : Florian Jug (MPI Dresden, Germany)
« *Content-Aware Image Restoration and Quantitative Downstream Analysis* »

17:50 - : get together with beer and snacks
